

## Sunday September 16<sup>th</sup>

<b>11:30 - 11:45 am</b> Needle Based Confocal Laser Endomicroscopy (nCLE) for Diagnosing Malignant Pleural Mesothelioma	Oral Presentation <b>Room 7.3Q</b>	L. Wijmans
--	---------------------------------------	------------

## Monday September 17<sup>th</sup>

<b>10:45 - 11:00 am</b> Confocal Laser Endomicroscopy (CLE) as a Guidance Tool for Transbronchial Lung Cryobiopsies in ILD	Oral Presentation <b>Room 7.3P</b>	L. Wijmans
<b>14:45- 16:45 pm</b> Probe-based confocal laser endomicroscopy in differential diagnosis of interstitial lung disease (ILD)	Poster Discussion <b>Room 7.2C</b>	I. Mamenko

## Tuesday September 18<sup>th</sup>

<b>8:30 - 9:00 am</b> First procedure: confocal endoscopy lesions	Session: Pulmonary endoscopy <b>Room 7.3A</b>	L. Thiberville
<b>8:30 - 10:30 am</b> Confocal Laser Endomicroscopy (CLE) for Differentiating the Underlying Cause of Ground Glass Opacities in ILD Patients	Poster Discussion <b>Room 7.2B</b>	L. Wijmans
<b>12:50 - 14:40 pm</b> Probe-based confocal laser-endomicroscopy imaging of differential auto-fluorescence of alveolar macrophages in diffuse lung diseases	Poster Discussion <b>Room TP-45</b>	K. Imaizumi
